An independent family group since 1908, **SOPREMA** has established itself as one of the world's leading waterproofing companies and also as a specialist in roofing, sound sublayers and insulation. Over the years, the **SOPREMA** Group has grown and diversified around the world by integrating complementary activities into its original business: waterproofing.

With a workforce of more than 9,200 people and a turnover of more than €3 billion, **SOPREMA** has a global commercial industrial footprint with 81 factories, more than 100 operating subsidiaries and a presence in 90 countries, as well as 17 highly focused sustainable development R&D centres and 22 training centres in eight countries.

As a result of a close collaboration between our marketing and R&D departments, the **SOPREMA** product range is innovative and fully in line with market requirements and current standards. **SOPREMA**'s success is built on a basic principle: to focus on the idea.

SOPREMA's products and services aim to meet the most demanding needs of building professionals in terms of waterproofing reinforced PVC membranes for swimming pools, waterproofing roof terraces, civil engineering works, insulation, roofing, natural lighting, and green and photovoltaic roofs.

SOPREMA offers original, high-performance and high-tech solutions that address all building problems. Constantly optimised by our research and development services as part of our eco-design approach, **SOPREMA** systems today deliver exceptional performance in terms of strength, reliability and longevity.

At **SOPREMA** we are fully committed to sustainability and we work towards a sustainable construction model focusing on two main points: manufacturing energy efficient products and adopting a closed and circular life cycle construction model that allows the reuse of construction waste. A renewed vision of construction with a more environmentally responsible and friendly approach is needed.

All **SOPREMA** plants are ISO 9001 certified. Some are also ISO 14001, ISO 16001 and ISO 18001 certified.

SOPREMAPOOL

SOPREMA, a world leader in waterproofing solutions, offers a wide range of reinforced synthetic membranes and other complementary products for the installation and maintenance of swimming pools under the name **SOPREMAPOOL**.

REINFORCED MEMBRANES

4-LAYER MEMBRANES

Reinforced synthetic membranes manufactured by induction with high quality raw materials (resins, plasticisers, stabilisers and pigments).

Composed of four layers with different and complementary formulations, introducing a polyester reinforcement between the second and third layers.

This reinforcement provides the membrane with great tensile strength and high dimensional stability.

- 1 HIGH PERFORMANCE PVC: LAYERS 1 & 2**
- 2 POLYESTER REINFORCEMENT**
- 3 HIGH PERFORMANCE PVC: LAYERS 3 & 4**
- 4 LACQUER FINISH***

* EXCEPT SOPREMAPOOL ONE

THE +

- Exclusive varnish integrated in all four layers
- Optimal welding
- UV resistance
- Resistance against microorganisms with "Bio Shield" treatment
- Impact resistance
- High mechanical resistance
- Resistance against standard chemicals for water treatment in swimming pools covered with a PVC liner

NEW FORMULATION

Our laboratories have improved their formulation by integrating an exclusive varnish in the four layers for the entire SOPREMAPOOL range, thus achieving greater durability and resistance to:

- Colour fading
- Chlorine
- Stains
- Microorganisms

« BIO SHIELD » TREATMENT

Its formulation with "BIO SHIELD" treatment guarantees total resistance to the formation of microorganisms and prevents any molecular change.

THE +

- Attractive and stylish
- Easy and quick installation
- Sensory experience
- Exclusive varnish integrated in all four layers
- Varnish coating
- Exclusive designs
- Multiple designs

SOPREMAPOOL 3D

180/100 REINFORCED MEMBRANE

PVC reinforced membrane of 1.8 mm with exclusive varnish integrated in all four layers and varnished coating for superior protection against UV rays, microorganisms and chlorine.

The 3D range replicates the feel and look of mosaics and natural materials.

The stylish embossed motifs add to the characteristic advantages of reinforced PVC lining: simple and quick installation and high protective and waterproofing capacity.

SOPREMAPOOL 3D has been tested for slip prevention according to the European standard EN 13451-1 (according to annex B of EN 15836-2) and DIN 51097 (1992).

DIMENSIONS

Roll of 1.65 x 25 m.

WARRANTY - 3D

- 12 years for waterproofing
- 3 years for stains caused by bacteria

SOPREMAPOOL DESIGN

150/100 REINFORCED MEMBRANE

PVC reinforced membrane of 1.5 mm with exclusive varnish integrated in all four layers and varnished coating for superior protection against UV, microorganisms and chlorine.

DIMENSIONS

Roll of 1.65 x 25 m.

GRIP (non-slip version)

All designs* are available in the non-slip version.

DIMENSIONS

Roll of 1.65 x 10 m.

COMPLEMENTS & ACCESSORIES

	156992	<p style="text-align: center;">PVC LIQUID</p> <p>Liquid PVC for liner covering in-ground pools.</p> <p>Colours: Transparent, Light Blue, Azure Blue, Sapphire Blue, Dark Blue, Caribbean Green, Natural Green, Wild Musk, Sand, White, Light Grey, Medium Grey, Basalt Grey, Black, Marbella, Bali & Bali XL, Bali Sand, Wood, Sensitive Sand, Sensitive White, Sensitive Grey and Sensitive Black.</p> <p>Content: 1 L.</p>
	152890	<p style="text-align: center;">ALSAN BOND POOL SP</p> <p>Alsan Bond POOL SP is a fast-drying sprayable solvent-based adhesive for bonding the geotextile to the pool support prior to liner installation. It is suitable for indoor and outdoor applications.</p> <p>Content: 500 ml. Box with 12 units.</p>
	159005	<p style="text-align: center;">ALSAN BOND POOL 410</p> <p>Cold contact glue for single and double gluing the reinforced membrane to the pool structure at specific points.</p> <p>Content: 5 L.</p>
	51344	<p style="text-align: center;">FLAT PVC METAL STRIP</p> <p>Profile to weld the reinforced membrane on the vertical walls.</p> <p>Content: Pack of 10 units. Dimensions: 2 m x 0.05 m</p>
	159821	<p style="text-align: center;">ANGLE PVC METAL STRIP</p> <p>Profile to fix the reinforced membrane in new-build or refurbished pools where there is a raised coping.</p> <p>Content: Pack of 10 units. Dimensions: 2 m x 0.05 m x 0.05 m</p>
	159761	<p style="text-align: center;">HUNG ALUMINIUM PROFILE</p> <p>Profile to anchor the reinforced membrane, especially suitable for new-build pools.</p> <p>Content: Pack of 10 units. Dimensions: 2 m x 0.05 m</p>
	158498	<p style="text-align: center;">PVC CORD</p> <p>Cord to weld the edge of the reinforced membrane to attach it to the profile.</p> <p>Content: Pack of 5 units Dimensions: 25 m x 9 mm (every unit).</p>

	107237	<p style="text-align: center;">PVC BORDER</p> <p>PVC strip to close the anchoring profile.</p> <p>Colours: White, Medium Grey, Dark Grey, Light Blue and Sand.</p> <p>Content: 30 m.</p>
	159762	<p style="text-align: center;">EXPANSION NAILS</p> <p>Expansion nails for fixing.</p> <p>Content: 100 Units</p> <p>Dimensions: 4.8 ø x 25 mm</p>
	159156	<p style="text-align: center;">LIQUID PVC APPLICATOR</p> <p>Applicator for the liquid PVC.</p>
	151757	<p style="text-align: center;">DISINFECTANT FOR STRUCTURE</p> <p>Product to clean and disinfect the pool structure. Procedure prior to the installation of the reinforced membrane that prevents the proliferation of microorganisms between the soil and the membrane.</p> <p>Content: 250 ml. 2.5% solution.</p>
	157622	<p style="text-align: center;">WELDING STRIP</p> <p>Welding strip to install Sopremapool 3D membranes (edge-to-edge installation).</p> <p>Dimensions: 25 m x 0.15 m</p>
	220276	<p style="text-align: center;">PVC MARKING STRIP</p> <p>Strip for the separation of the swimming lanes.</p> <p>Dimensions: 25 m x 0.25 m</p>
		<p style="text-align: center;">LEISTER POOL KIT</p> <p>Complete kit of tools for the installation of synthetic membranes in swimming pools: Leister Triac AT 230 V / 1600 W; 40 mm, 20 mm and 5 mm flat nozzle for hot air torch; quick flat band nozzle 8x2 mm; 40 mm silicone pressure roller; 8 mm brass pressure castor; synthetic diaphragm welding tip; angled floor chisel 28 cm for PVC membranes; anti-cut gloves level 5 Taeki size 10; cutter blades 18 mm metal body; cutter retractable blade metal body; Spid convex brush brass-plated steel; tape measure 5 m x 25 mm; bi-material PH 1x100 screwdriver; transport package <30 kg.</p>
